## PROJECTS

### CineChronicle Platform.

[Live Link](#)

- Developed an IMDb-like platform using React, Redux, and React Router to enable seamless navigation and dynamic content rendering.
- Integrated The Movie Database (TMDb) API to fetch and display up-to-date movie and TV show data.

### Youtube Clone Using Rapid Api

[Live Link](#)

- Developed a responsive YouTube clone using Rapid AI, incorporating dynamic video playback, intuitive search functionality, and user-friendly interface.
- Showcased expertise in leveraging Rapid AI for real-time data fetching and implemented seamless UI / UX with Tailwind CSS

### AI-Powered Image Generator.

[Live Link](#)

- Developed a responsive AI image generator using React and SegMind API, enabling users to create and download AI-generated images from text prompts.
- Integrated features like a "Surprise Me" option, recent history storage, and seamless deployment on Vercel

### Recipe-Book

[Live Link](#)

- Explore Random Recipes – Recipe Book lets users discover new recipes with each reload or button click, providing inspiration for their next meal.
- Detailed & Responsive UI – Users can view recipe instructions, ingredients, and preparation time in a sleek, mobile-friendly interface.
- Built with Modern Tech – Developed using React (Vite), Tailwind CSS, and the Spoonacular API, the app dynamically fetches recipes and is deployed on Vercel.
